

#### ANOTHER GOLD STAMPEDE.

Everybody Scampering From Tonopah to Stone Cabin.

A big rush has been made by the Clifford brothers of Stone Cabin. Such is the report brought in from Tonopah yesterday morning by Malcolm L. McDonald, the well known Nevada operator and engineer.

"On Saturday, when I left camp," said Mr. MacDonald during the afternoon, "automobiles, saddle horses and all conceivable kind of rigs were being pressed into service by those determined to jump in and investigate the new find. What it amounts to I am not able to learn before leaving, other than that it was sensational in character. Stone Cabin is east of Tonopah and west of Revell and north of the former discoveries in the Kawich camp. Excitement was intense at Tonopah so there is every possibility that the new discoveries are more than ordinarily important."

Mr. MacDonald says that all the Nevada camps are on the hum again now that the heat of summer is passed and work being done all along the line is of that character which rapidly converts prospects into producing mines. The Bullfrog country, he says is making a particularly fine showing at the present time and the production of the region, he declares, will not be long in climbing to proportions that will astonish some of the older camps of the State and the entire country for that matter.—Salt Lake Herald.

#### T. B. Rickey Escapes Death.

T. B. Rickey met with a runaway accident near Carter's station last Tuesday and how he escaped without being killed is a miracle.

He was on his way to Antelope valley and was driving a very spirited team. When nearing the station the team took fright at a dog and dashed over the embankment throwing the driver heavily to the ground. The team continued on its mad dash until the buggy was entirely wrecked. Mr. Rickey continued on foot to Rodenbaugh's a few miles this side of where the accident occurred. His face was covered with blood from the many bruises and his clothes were covered with dust. His head was severely bruised but it is thought with good care he will fully recover from the injuries received.

The news of the accident was telephoned to Wm. Ritchford who proceeded to Rodenbaugh's and took the injured man to his home in Carson.—Record-Courier.

As Mr. Rickey is on the street and in the best of health the mishap did not seem to be as bad as it might have been.

#### County Commissioners Meeting.

The Board of County Commissioners will meet on Monday next, Nov. 6th. All parties having bills against the county must present same before that date and file them with the clerk of the Board.

H. B. VAN ETTEN,  
Clerk of the Board.

New lines of footwear are arriving daily at Ed. Burlington's Shoe Store. He has been considerably hampered by delay in freight but they are arriving daily. You will find the largest and best lines of shoes are carried in his store and prices are always the lowest. You can save money by purchasing footwear at his store.

#### Funeral of Phil Bryant.

The funeral of the late Phil Bryant took place yesterday afternoon from the Kitzmeyer undertaking parlors and was largely attended, many old friends and neighbors from Washoe Valley being present.

The services were conducted by Rev. B. J. Darnelle, of St. Peter's, assisted by his choir, and were deeply impressive. A long procession followed the remains to the cemetery.

#### Births.

A daughter was born yesterday to Mr. and Mrs. John Ober.

A son was born yesterday morning at the home of William Bertrand in Washoe Valley.

Twins were born to Mrs. Simpson Wednesday night at the Blackwell road, near town. One of the infants died a few hours afterwards. The little one will be taken to the parent's home in Smith Valley for interment.

Underwear to suit the weather conditions can be found at Joe Platt's.

#### GETS TEN YEARS.

Alpine Murderer Gets Light Sentence for the Crime.

GARDNERVILLE, Nov. 3.—Antone Badaracco, charged with foully murdering John Tandola in Alpine county on Aug. 27th last, pleaded guilty to a charge of manslaughter before Judge Clark Howard in the Superior Court at Markleville yesterday morning. He was at once sentenced to ten years in the penitentiary at Folsom. This is the extreme limit.

The crime for which Badaracco stands convicted was one of the most brutal in the history of Alpine county. Tandola was found dead in the field a rope tied around his body. Badaracco was previously heard to threaten Tandola's life. This, together with the fact that he has always had a bad reputation, fastened suspicion upon him and he was arrested. The evidence was so strong that Badaracco willingly took advantage of the offer to plead guilty. He will be taken to Folsom at once.

#### THE MINSTRELS.

Care Has Been Taken in Selecting the Fun Makers.

The Haverly Mastodon Minstrels will be seen at the Carson City opera house on next Monday evening with the famous Fred P. Russel and Billy Beard as the star comedians. The assisting comedians have been carefully selected for their fun making proclivities. The singing contingent with a first class minstrel company is one of the expensive parts of the pay roll. No better evidence of the care that has been taken to secure singers for this minstrel company can be given than to submit the list of artists who sing with the Haverly show. Among those quite prominently known are Walter McFarland, Tommy Burnette, W. F. Boyer, W. H. Parkerson and W. A. Wolfe. In matter of fact, the management has not slighted any part of the performance, and the scenic equipment are the most expensive ever seen in a minstrel production.

#### Water in Truckee River Low.

The electric lights have been very low the last few evenings and unless there is a big storm there will be no improvement. The trouble is caused by the low stage of water in the Truckee river, the head not being sufficient to run the generators at their usual speed. It is hoped to improve matters by opening the gates at Lake Tahoe, as all the water at present flowing down the river is diverted to the power flume. Last night the four power plants on the river were put in commission and there lights were greatly improved.

Mrs. C. E. Anderson, formerly Miss Clara Mather, arrived yesterday from her home in Eastern Nevada to attend the funeral of her brother.

#### MORE SMELTERS.

Nevada People Figure on Utah as a Site.

SALT LAKE CITY, Nov. 3.—As a result of the discontent that is being engendered in the ranks of the Nevada producers, another smelting concern is likely soon to go into business in Salt Lake. Since Charles M. Schwab's visit to Nevada a few weeks ago, when he declared that some means would have to be provided to give the producing mines of that region a chance to market their ores, even though new smelters had to be erected to relieve the situation, steps have been taken in that direction.

A dispatch from San Francisco says that prominent Nevada operators have their experts in the Salt Lake valley looking for a smelter site. In view of the talk that Charles M. Schwab contemplated building a smelter in the desert to meet the requirements of his own mines, the rumor concerning the search in this valley for a site is considered to have some foundation in fact, because no one familiar with the conditions in Nevada and particularly the Tonopah-Goldfield-Bullfrog region, will think for a moment that a smelter of any magnitude will ever be built there. Water might be secured, but when it comes to securing coke, coal, fluxes, and other things so essential to the conduct of smelting works, they must be located where these things are available. Utah is conceded to be the place—the place of places in this western country—and if Mr. Schwab and other big operators of Nevada are determined to make themselves independent of the American Smelting and Refining company and its plan of accepting only such ores as it needs, and in quantity named by it, rather than the producer, works will undoubtedly be erected here.

#### Utah Expert's View of Como.

Como, twenty-two miles out of Virginia City is likely to prove a formidable rival of Tonopah or Goldfield says Frey T. McGurran, a well known attorney and mining man of that city, who has just returned from a trip through several of Nevada's camps, says the Salt Lake Tribune. When Mr. McGurran left Como work on three mills for the treatment of ores carrying from \$60 to \$70 gold, of which several properties have large tonnage in sight were being pushed as rapidly as possible and the town was growing in a lively manner. The power line conveying power from the Truckee river has just been completed and there is every indication that the present winter will reveal important developments.

#### Notice.

Those wishing to view the remains of Will Mather will please call at his late residence before 12 M., Sunday, as the casket will not be opened at the Church.

#### FROM OLINGHOUSE.

"Buck" Ingalls Pays Carson a Visit and Talks Olinghouse.

"Buck" Ingalls the locator of the richest mines in Olinghouse section is in this city for a few days visit. He came in on business and pleasure and found both in this city. Mr. Ingalls who has discovered the mother lode of the Olinghouse section is more than enthusiastic over the outlook in his particular section. He has not only uncovered the ledge that shows the big values but he has also made other discoveries. Some of the minerals he has found was not looked for in Olinghouse but was given the go by the same as in Virginia City when it was discovered. He has some excellent specimens of antimonial silver, black metal, such as was discarded when the miners first succeeded in six mile canyon.

Mr. Ingalls, while on a visit to San Francisco, found that the ore he had found corresponded with that shown in the Chamber of Commerce at that city and that came from the famous Comstock. The comparison is perfect and he has the values to show that he has the real thing.

Another piece of ore taken from below the ground is simply lousy with the precious metal. Gold is sticking out all over it and this is the discovery that has made Olinghouse famous. In speaking of the camp Mr. Ingalls said:

"The district is bound to boom. It is a new section and the area of the deposit is extensive enough to make a hundred mines. The values are mostly gold and some of it of sensational richness. Of course the present law suit with the railroad over the land has given us a temporary setback, but I have no fear of the outcome and there is plenty of good mining ground that is not claimed by the railroad people. As to assays we can show some that range from a few hundred dollars to the thousands, and specimen ore is an every day occurrence. The mines of the section are now being placed in a condition that will show the camp in its true light. There are a lot of fortunes being made there and many more will be made in the camp. Just as soon as the disputed ground is cleared there will be a rush to that section and in my belief there will be many properties developed that will open the eyes of the mining world. I am satisfied with what I have and have enough to satisfy any man."

"I am going to the Comstock as I wish to make a comparison with what we have and the big lode. From what I can learn the ores are similar and the comparison will undoubtedly be of value to me and the people of the camp."

#### THE FINAL PLEA.

Rev. Darnelle Presents Roberts Case to Attorney Craig.

With all the fervor born of sincerity, Rev. Darnelle of the Episcopal church of Carson City pleaded with District Attorney Craig in Reno yesterday morning for the life of Fred Roberts, the youngest of the four murderers condemned to die from the scaffold at Carson City on the morning of November 17th. The reverend gentleman is making a last struggle to save the boy from the gallows and asked Mr. Craig to sign a petition asking the board of pardons to extend clemency. Despite the strong appeal Mr. Craig was unmoved. He believes that Roberts is equally guilty with the balance of the murderers and for that reason should pay the extreme penalty for the cowardly murder of Jack Welch.

Rev. Darnelle argued that Roberts is illiterate, not of sound mind and was not capable of realizing the enormity of the crime when Jack Welch was murdered. He is taking up the lad's battle merely as a Christian duty. What hope he has of success, he did not express yesterday. On November 10th the board of pardons will meet at Carson to take final action on the four murderers' plea for clemency. At that time Rev. Darnelle will present Roberts' petition and make the last appeal to save him from death.—Journal.

#### A. O. U. W. Notice.

The members of Ormsby Lodge, No. 4, A. O. U. W., are requested to meet at Odd Fellows' hall Sunday afternoon at 1:30 for the purpose of attending the funeral of our late brother, W. H. Mather.

W. W. GOODE, M. W.

A strange metal unknown to mineralogy, has been discovered near Goldconda, Humboldt county, and samples have been sent to several laboratories for analysis.

## Stoves, Ranges, Heaters

All Styles Sizes and Prices

Ed. J. Walsh

## FALL and WINTER Stock

Seasonable Suits Underwear, Neckties, Gloves and all classes of Goods to meet the requirements of patrons.

Agent for the Continental Tailors

We take your measure and guarantee a fit

Joe Platt "The Pioneer Clothier" County Building

## The Autumn Hunting

does not include footwear in its possibilities...With our large and varied line of Fall shoes of every description, the foot does not need to hunt for a shoe to fit it. The shoe you need is right here in our store. Give us the style you desire, number and width, and the rest is easy.

Ed. Burlington's Exclusive Shoe Store

## If You are Looking for an Overcoat for Fall or Winter

at a moderate price that is fashionably perfect in every detail, come and look over our large stock of smart models. Here you will see every new style in all the finest overcoats at prices that will positively appeal to you. In our collection you will find a large assortment of

MICHAELS-STERN FINE OVERCOATS

which in cut finish and fit are with out rival for the price.

Men's and Young Men's Top Coats at \$10 to \$30.

Short top coats of covert, in fashionable colorings and Scotch cheviots in handsome weaves, and medium length models made of Oxford and black unfinished worsteds and cheviots with silk-faced lapels or silk-lined throughout. Exquisitely tailored.
